Brigido's Fresh Market... Caring About the Community

Fundraising is not an easy task in today's economy. Organizations and groups are finding it more and more difficult to raise the money necessary to support a growing community.

Become a member of Brigido's Fresh Market's "Community Fund". It's an easy way for non-profit organization to raise money.

Here is how it works:

Your non-profit organization must register with Brigido's Fresh Market by completing the registration form enclosed.

Once your organization is registered as a "Community Fund" member, your coordinator then collects Brigido's Fresh Markets register tapes from your group members. The coordinator then tallies them and submits the tapes (in increments of \$2,500.00 or more) to Brigido's Fresh Market. Within 30 days, the registered non-profit group will receive a check for a percentage of the total register tapes submitted.

The "Community Fund" is another way for Brigido's Fresh Market to help our community grow.

COLLECTION OF RECEIPTS

Select convenient locations for the receptacles to collect register tapes.
Locations that are easily accessible to your members are always a good choice.

Suggestions: If your organization does a monthly mailing, place a reminder about your participation in the Brigido's Fresh Markets Community Fund. To ensure that all members are aware of your group's participation, you may consider a special mailing. We will be glad to supply you with flyers explaining the program.
